

NEC to Yeastar:

# 7 Key Reseller Reasons

In April 2024, NEC made an announcement declaring their intention to exit their on-premises UC products. Many resellers are now looking at how best to fill the gap in their portfolio. This document aims to assist you in evaluating whether Yeastar is a better fit. We've outlined some of the business advantages of choosing Yeastar and why it's the perfect fit for the NEC reseller.

## 1 You Are in Safe Hands

### We Ranked Top 10 in VoIP

Yeastar is dedicated to providing easier and more efficient solutions for customers and partners. This commitment is evident in the extensive positive feedback we've received from the G2 review, where Yeastar PBX is ranked in the top 10 (among 423 VoIP vendors) for user satisfaction and achieved a usability score that surpasses the industry average.

<p><b>Rich</b> Integrations &amp; Certified Interoperability</p>	<ul style="list-style-type: none"> <li>o CRM / Helpdesk           <div data-bbox="507 1224 1238 1278"> </div> </li> <li>o Microsoft           <div data-bbox="507 1353 1107 1407"> </div> </li> <li>o IP Phone / Intercom Systems           <div data-bbox="507 1489 1497 1597"> </div> </li> <li>o ITSP           <div data-bbox="507 1677 1362 1731"> </div> </li> </ul>
<p><b>Optimized</b> for Different Verticals</p>	<div style="display: flex; justify-content: space-between;"> <div data-bbox="485 1802 778 2022"> <p><b>✔ Highlights for Schools</b></p> <ul style="list-style-type: none"> <li>• Scheduled Paging/Bells</li> <li>• SMS Messaging</li> <li>• WhatsApp Chat</li> <li>• Microsoft 365 Integration</li> <li>• and <a href="#">more</a></li> </ul> </div> <div data-bbox="855 1802 1118 2022"> <p><b>✔ Highlights for Hotels</b></p> <ul style="list-style-type: none"> <li>• PMS Integration with Oracle &amp; Fidelio</li> <li>• Wake-up Calls</li> <li>• Room Status</li> <li>• and <a href="#">more</a></li> </ul> </div> <div data-bbox="1195 1802 1501 1985"> <p><b>✔ Highlights for Healthcare</b></p> <ul style="list-style-type: none"> <li>• Call Center</li> <li>• SMS messaging</li> <li>• hot desking</li> <li>• and <a href="#">more</a></li> </ul> </div> </div>

### 3 You Simply Sell & Earn More

## More Value for Money

At Yeastar, we simplify the sales process and ensure profitability for our resellers. Our PBX hardware includes 100+ IP telephony features out of box, freeing resellers from managing multiple licenses per user for different features. This also results in lower total costs of ownership, particularly for IP communications. To make it easier to understand, let's compare the licensing models of NEC and Yeastar.

	NEC	Yeastar
<b>License model</b>	<p><b>One-off Hardware</b> with <b>Only basic</b> telephony features included  <b>+ Tens of</b> separate licenses for the sales of different IP &amp; UC &amp; Mobility features</p>	<p><b>One-off Hardware</b> with <b>All</b> telephony features included  <b>+ 3</b> simple subscription-based plans to add advanced UC features</p>
<b>Features requiring extra licenses</b>	<ul style="list-style-type: none"> <li>○ Call Recording (per system license)</li> <li>○ SIP Trunks (per line license, 4 free included)</li> <li>○ SIP/IP Extensions (per user license, 4 free included)</li> <li>○ Mobile Softphone (per user license)</li> <li>○ Desktop Softphone (per user license)</li> <li>○ CTI (per system license)</li> <li>○ Voicemail to Email (per system license for SL2100, per user license for SL9100)</li> </ul>	<p>All the features mentioned on the left are included in the Yeastar PBX hardware and available for all users. Resellers don't need to pay extra.</p>

### Conclusion →

NEC PBX offers fewer features initially (most of them are analog-centric) to keep the entry cost low, but when you need to add IP communications features, costs escalate with extra licenses. In contrast, Yeastar PBX hardware includes all features to ensure customers can fully leverage IP communications and lower the overall costs in the long term.

### Other Yeastar Reseller Advantages:

- ✓ Big business features at small business price
- ✓ Full control of retail price & bundle
- ✓ Create a unique offering by bringing your services selling phone hardware, SIP trunks, etc.
- ✓ Access to Yeastar Partner Portal. Manage purchased products, keep track of license renewal, and more—all in one intuitive place.

#### 4 Easy Migration to IP

### Seamless IP Migration Solution

- ✓ Your customers can keep their current analog infrastructure with Yeastar P-Series. It supports both landlines (ISDN/PSTN) and SIP Trunks. Plus, the P-Series appliance edition support multiple telephony interfaces like FXS, FXO, GSM, and PRI.
- ✓ Easily connect numerous analog phones, fax machines, and more using VoIP gateways for a plug-and-play experience.

#### 5 Easy Moving to Cloud

### One System for All: On-premises, Cloud, or Software-only

- ✓ At Yeastar, we cover all bases and have one system for all! The P-Series PBX's 3 editions (Appliance/Cloud/Software) share the same UI and designs – ideal for resellers look moving to the cloud
- ✓ Adapt to changing business landscapes with ease

#### 6 Kick Start Your Selling

### Easy On-boarding

- ✓ Certification-based product, sales, & technical training courses
- ✓ Quick sales & marketing playbooks & market-ready resources
- ✓ Rich install videos on YouTube & help documents
- ✓ Purpose-built 1:1 webinar training available
- ✓ Comprehensive Demo Kits: NFR & Free Trial Resources

#### 7 Dedicated Support

### 100% Channel Commitment.

As a 100% channel-focused vendor, we listen to partners and spare all resources to help partners grow.

#### Technical Support

- Direct live chat & prioritized telephone support
- Open partner community & support portal
- Experienced, highly responsive team

#### Sales

- Dedicated account manager & pre-sales engineer devoted to your success
- Vertical market expertise & project building
- Live demo & webinar support

#### Marketing

- Responsive regional marketing specialist
- Extensive marketing resources
- Proposal-based marketing development funds

**Yeastar is excellent in providing great support from sales, marketing to implementation and troubleshooting, resulting in our success.**
